PROFESSIONAL SUMMARY

Final year B.Tech ECE student blending hardware and software skills: circuit design, embedded systems, RF communication, and full-stack web development (Python, Flask, JavaScript, HTML, CSS). Built an AI-powered Resume Analyzer with PDF parsing and ATS scoring, a browser-based code editor, and an RF-controlled drone with flight stabilization. AWS, Oracle, and NVIDIA AI/ML certified, with hands-on VLSI design and hardware prototyping experience.

SKILLS

- **Programming Languages:** Python, Java, C
- **Web Technologies:** HTML5, CSS3, JavaScript (ES6, DOM APIs)
- **Frameworks & Libraries:** Flask, PyPDF2
- **Embedded Systems & Hardware:** Arduino Programming, Microcontrollers, Hardware Interfacing
- **Core ECE:** Circuit Design & Analysis, Analog Electronics, Digital Electronics, RF Communication
- **Tools:** Arduino IDE, MATLAB, Multisim, VS Code, GitHub, Render

PROJECTS

AI Resume Analyzer & ATS Checker

Python, Flask, HTML, CSS, PyPDF2, GitHub, Render | [GitHub Repo](#) | [Live Demo](#)

- Built a full-stack Flask web app that parses resumes (PyPDF2) and generates ATS compatibility scores against job descriptions.
- Built a keyword/skill gap analysis module and generated reports covering ATS score, missing keywords, and improvement suggestions.
- Built a responsive HTML/CSS UI and deployed on Render with CI via GitHub.

Browser-Based Code Editor

HTML5, CSS3, JavaScript (ES6, DOM APIs, File Handling) | [GitHub Repo](#) | [Live Demo](#)

- Built a client-side code editor for real-time execution and live preview of HTML, CSS, and JavaScript.
- Implemented modular functions for code execution, file download, theme switching, and DOM-based content injection.

RF Transmission Drone

RF Modules, KK 2.1.5 Flight Controller, ESC, BLDC Motors, Li-Po Battery

- Designed an RF-based drone communication system using RF transmitter-receiver modules, applying thrust and lift principles for stable takeoff and maneuvering.
- Integrated a KK 2.1.5 Flight Controller and assembled ESC, BLDC motors, and Li-Po battery system; performed hardware calibration and signal testing.

EDUCATION

B.Tech, Electronics & Communication Engineering — 2023 - 2027

Pranveer Singh Institute of Technology, Kanpur

O-Level (Computer Applications), NIELIT — 2022 - 2023

National Institute of Electronics & Information Technology

Intermediate (Class XII) — 2022

Oxford Model Senior Secondary School, Kanpur

CERTIFICATIONS

- Fundamentals of Machine Learning and Artificial Intelligence - AWS Training & Certification (2026)
- VLSI Course & PCB Design - Simplilearn
- Generative AI Professional Certificate - Oracle
- Getting Started with AI on Jetson Nano - NVIDIA
- Python Programming Language - Infosys Springboard
- Web Development & C Programming Language - Udemy

ACHIEVEMENTS

- Finalist, TechExpo 2025, PSIT Kanpur
- Presented a project at the International Conference EACE-2025, PSIT Kanpur
- Secured All India Rank 342 in CodeQuot Coding Challenge (Naukri Campus)
